## **Snow and Bad Weather Policy**

It is the policy of the school to make every effort to remain open whenever possible as long as it is safe to do so. The prime concern when making a decision to close the school will always be the safety of pupils and staff.

The decision to close the school either before or during the school day will be made by the Head Teacher. The school will only be closed if one or more of the following conditions apply:

- An insufficient number of staff are able to come in to keep the school running safely.
- Conditions on site are dangerous
- Conditions are considered to be or are anticipated to later become too hazardous for travel.

If the school is to close:

1. The closure will be recorded on the school website [www.stoswasldscatholicprimary.co.uk](http://www.stoswasldscatholicprimary.co.uk)
2. The school will alert parents to the closure using the school app, text messages or e-mail.
3. The school will endeavour to keep parents informed during adverse weather conditions, as we appreciate that uncertainty places very considerable difficulties upon parents. Parents are however expected to check the website and school app and/or make themselves aware of the radio broadcasts when it is clear that a closure is a possibility. Weather reports and school closures are broadcasted on Wire FM (FM 107.7). Parents are also asked to check weather updates on the internet.
4. The school appreciates that during bad weather children may arrive later than normal; parents should endeavour to contact the school to let them know they are on their way if they are likely to be delayed.
5. The school recognises there will be isolated instances where families are cut off, even where the clear majority of children can get into school. In such instances parents should inform the school of the circumstances of this exceptional situation, as the school has a duty to clarify the circumstances of each case so as to be able to formally authorise the absence to the Local Authority. Parents acting on the assumption that the school would be closed without gaining confirmation, or failing to inform the school of the circumstances that prevents the child coming into school risks their child being registered as an un-authorised absence.
6. Where the school is officially closed, all absence is counted as authorised absence.
7. In the event of the school having to close during the day due to unforeseen worsening weather or similar unforeseen circumstances, parents will be contacted by the school app, text message, e-mail or a phone call either at home or work and asked to collect their child/ren. Such an early release will only be contemplated in very extreme circumstances.

All parents/carers are urged to ensure that mobile phones are always switched on and audible in case we are trying to contact you.

8. In the event of snow, some pathways will be cleared and salted. Parents, children and visitors will be made aware that pathways, even where cleared, do remain dangerous. Children will also be reminded of this at school.

9. Parents are responsible for ensuring their children do not slide on the school playground before and after school opening hours. In icy conditions the school site supervisor will salt wide pathways around the main routes and walkways that children and parents use.

10. During adverse weather conditions, the playground may be out of bounds to parents and children at the beginning and end of the school day and if the Head Teacher decides it necessary, at break times as well.

In the Headteacher's absence the Assistant Headteacher will assume responsibility for making all decisions relating to adverse weather conditions
