

Year 4 - Class Blog - 23.4.2026

Year 4 have settled in well to the summer term and have made a positive start. We are working especially hard in maths as this is our final half term before the times tables check, so regular practice at home will really help build confidence and fluency.

In PE, we are enjoying our athletics unit on Tuesdays, focusing on developing our sprinting technique and understanding how to improve speed and control. On Fridays, we have been learning the basics of rugby, including practising how to pass the ball accurately to a partner.

In art, the children have been exploring rainforest imagery, sketching from photographs and paying close attention to how different colours can be used to create mood and atmosphere in their work.

We also had a special visitor in school who taught us about Islam. Year 4 had the opportunity to learn about the holy book, the Qur'an, and even practised writing in Arabic, which was a fantastic and engaging experience for everyone.

I hope everyone enjoys the Holy Communion at the weekend I'm sure it will be an amazing day.

Kind regards, Mr Critchley
